Railway Freight Transportation Portal

Who we are?

We are a branch-oriented portal supporting commercial and other activities within the field of railway freight transportation and related fields.

A typical **Portal** user is:

- a rolling stock owner
(freight wagons or locomotives)
- transporter
- freight forwarder
- repair plant
- commodity owner (production plant)

Our goal is to provide all of the above-mentioned users with speed, comfort, wide range of offers or possibility to place your own inquiries while managing rail transportation, and thereby to become an effective support tool for dealers.
