

RW Support

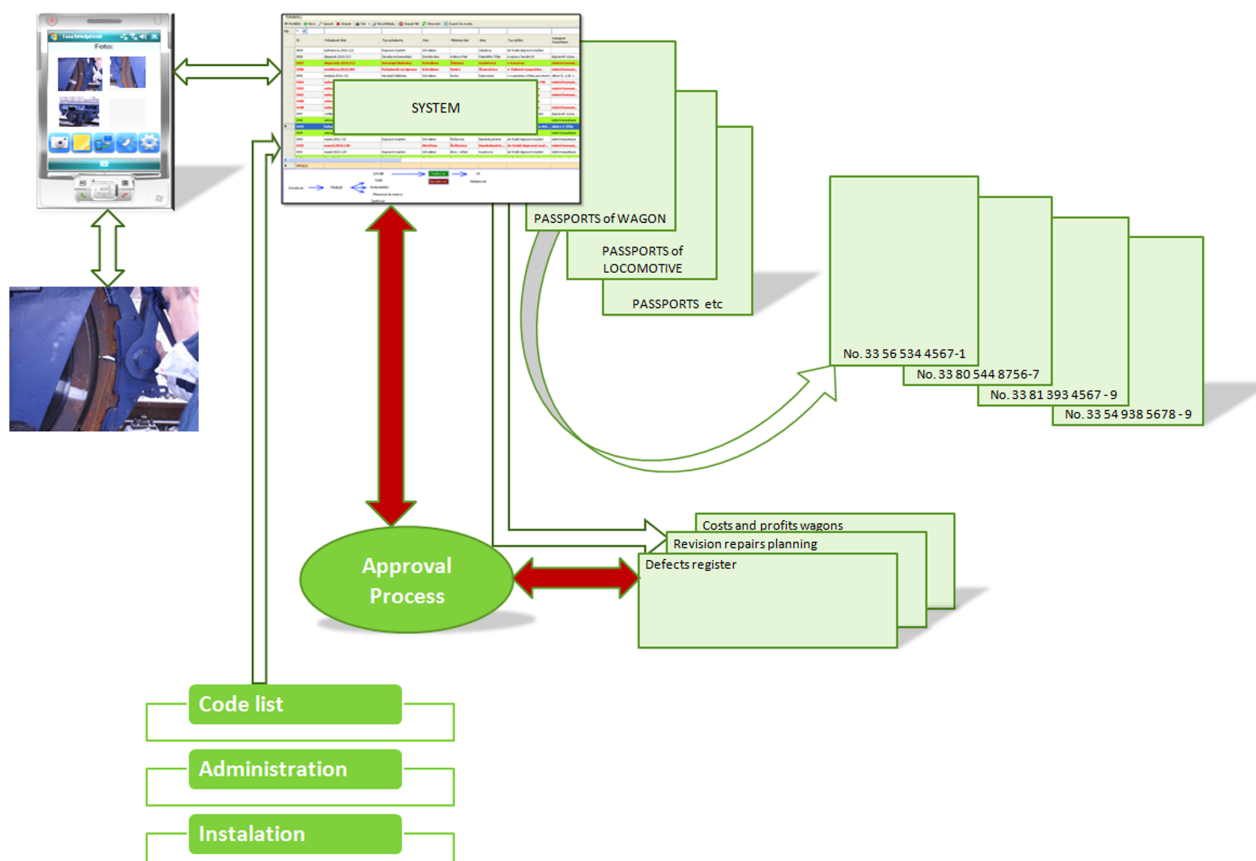

A modern software application designed for administration, maintenance and registration of rolling stock by using mobile communication tools.

A typical **RW Support** user is:

- a rolling stock owner
- a transporter

System links:

- technical surveys of wagons condition
- repairs planning
- defects register
- approval process
- costs and profits, register of wagon failures
- process history
- code lists, administration, management of users

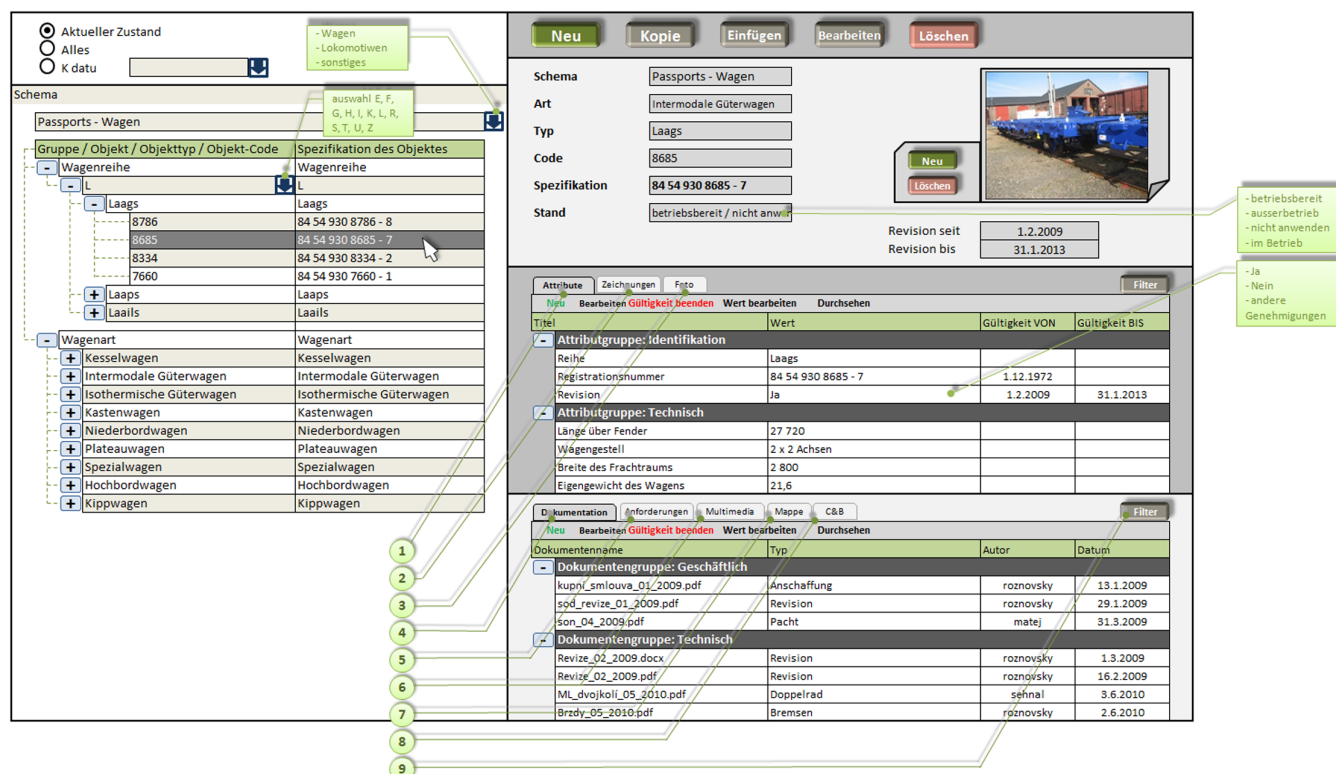

RW Support

Used technologies:

- mobile applications using „Smart“ phones
- desktop applications

Documentation managed by RW Support:

- General information on a wagon
- Type list
- Repair documentation
- Register of inspections and handovers
- Handover certificates
- Failure records
- Periodical repairs planning
- Costs of a wagon or a group of wagons
- Profits from a wagon or a group of wagons
- Register of wagon failures
- Photo documentation
- Register of trade agreements (Contracts)

The screenshot displays the RW Support software interface. On the left, a 'Schema' tree shows a hierarchy of wagon types: 'Passports - Wagen' (selected), 'Wagenreihe' (L), 'Laags' (selected), and 'Wagenart' (Kesselwagen). The main area shows the 'Spezifikation des Objektes' for 'Laags' with fields for 'Reihe' (8786), 'Registrierungsnummer' (84 54 930 8786 - 8), 'Revision' (8685), and 'Stand' (84 54 930 8685 - 7). Below this, a table lists 'Wagenart' options: Kesselwagen, Intermodale Güterwagen, Isothermische Güterwagen, Kastenwagen, Niederbordwagen, Plateauwagen, Spezialwagen, Hochbordwagen, and Kippwagen. On the right, a 'Neu' button is visible, and a photo of a blue wagon is shown. Below the photo, a table lists 'Attribute' (Zeichnungen, Foto) with columns for 'Titel', 'Wert', 'Gültigkeit', and 'Durchsehen'. The 'Gültigkeit' column shows dates: '1.12.1972' and '1.2.2009'. Below this, a 'Dokumentation' section lists documents with columns for 'Dokumentenname', 'Typ', 'Autor', and 'Datum'. The 'Typ' column shows document types: 'Geschäftlich' (Anschaffung, Revision, Pacht) and 'Technisch' (Revision, Doppelrad, Bremsen). The 'Datum' column shows dates: '13.1.2009', '29.1.2009', '31.3.2009', '1.3.2009', '16.2.2009', '3.6.2010', and '2.6.2010'. On the far right, a legend indicates: '- betriebsbereit', '- ausserbetrieb', '- nicht anwenden', '- im Betrieb', '- Ja', '- Nein', '- andere Genehmigungen'.
